

## HOME: a project for young people in the RBKC

What is 'home' to you? Where do you feel 'at home' in yourself and in society?

This project invites you to explore the idea of home. Considering real and imagined ideas of home and where the boundaries of 'home' are, home as a place of refuge, where you feel able to speak out, home embodied in another person, in a landscape, space, sound, an object, food...

Share your thoughts on home with artist duo kennardphillipps, and create photomontage artworks that express your ideas using collage, scanning, photoshop and printing techniques.

Artwork arising from the project will be exhibited in a public exhibition at The Mosaic Rooms, 13-21 September 2013, visit <http://www.mosaicrooms.org/home-2/> for more details.
