

We pride ourselves on being creatively driven and we have a solid and successful business and reputation based on this. We offer professional advice, integrity, knowledge of our products and we are enthusiastic about what we do.

Mustard's strengths lie in our specialist boutique field of high end food production, service, client maintenance and experienced professionalism.

"rhubarb" food design has earned a reputation for being innovative, dynamic, high quality and bespoke. This has been achieved by advancing the limits of food design and catering, without compromising quality.

This formula has made us one of the top five catering companies in London. We only create and present the finest quality food – food that is exquisite to taste as well as fabulous to look at.
